Type:
Cover crop attachment

Model:
Turbo-Seeder™

Availability:
August 2015

Standard Equipment:
• Color-matched 45 cu. ft. hopper
• Frame and attaching parts for 2400, 3000, 3500 Turbo-Max®
• Ladder and walkboard
• 12-volt, 25-amp meter drive
• 2 metering wheels for large and small seeds
• 8-gpm, hydraulically-driven fan

Optional Equipment:
• Hose and diffuser kit for 2400/3000 Turbo-Max (12 diffusers and 200 ft. of 1-1/4” hose)
• Hose and diffuser kit for 3500 Turbo-Max (16 diffusers and 300 ft. of 1-1/4” hose)

Features & Benefits

DIFFUSER PLATE - Distributes the seed laterally and downward in even, 30” bands.
LADDER AND WALKBOARD - For safe, easy access to seed hopper without climbing over the machine.
12-VOLT 25-AMP METER DRIVE - With Zero-Max infinite rate adjustment.
EASY-FILL HOPPER - Slide-away cover speeds and simplifies fills. 36-bushel seed capacity is ideal for even large-acreage operations.
HYDRAULICALLY-DRIVEN FAN - Provides even seed distribution across the entire machine.
SOLINOIDS - Provide section control on each half of the machine to avoid wasting seed on double-seeding.
HOSE KIT - Has 12 or 16 diffusers and 1-1/4” diameter hose for unrestricted air and seed flow.
